- 2 What is a gadget? What is a weapon? James Bond always has a lot of strange gadgets and weapons to help him on his missions. For example, a pen that shoots bullets, or a telephone in his watch. Design a set of gadgets and weapons to help Bond in this story.

B While Reading

- 3 People are always trying to kill James Bond in unusual ways. Make a list of who was trying to kill him and how for each chapter.

	Who is trying to kill Bond?	How are they trying to kill Bond?
Chapter 7		
Chapter 8		
Chapter 10		
Chapter 11		
Chapter 14		
Chapter 15		
Chapter 16		

- 4 Below is a report Bond writes to M at the end of the mission. There are 11 mistakes in the report. Find the mistakes and correct them.

Dear M

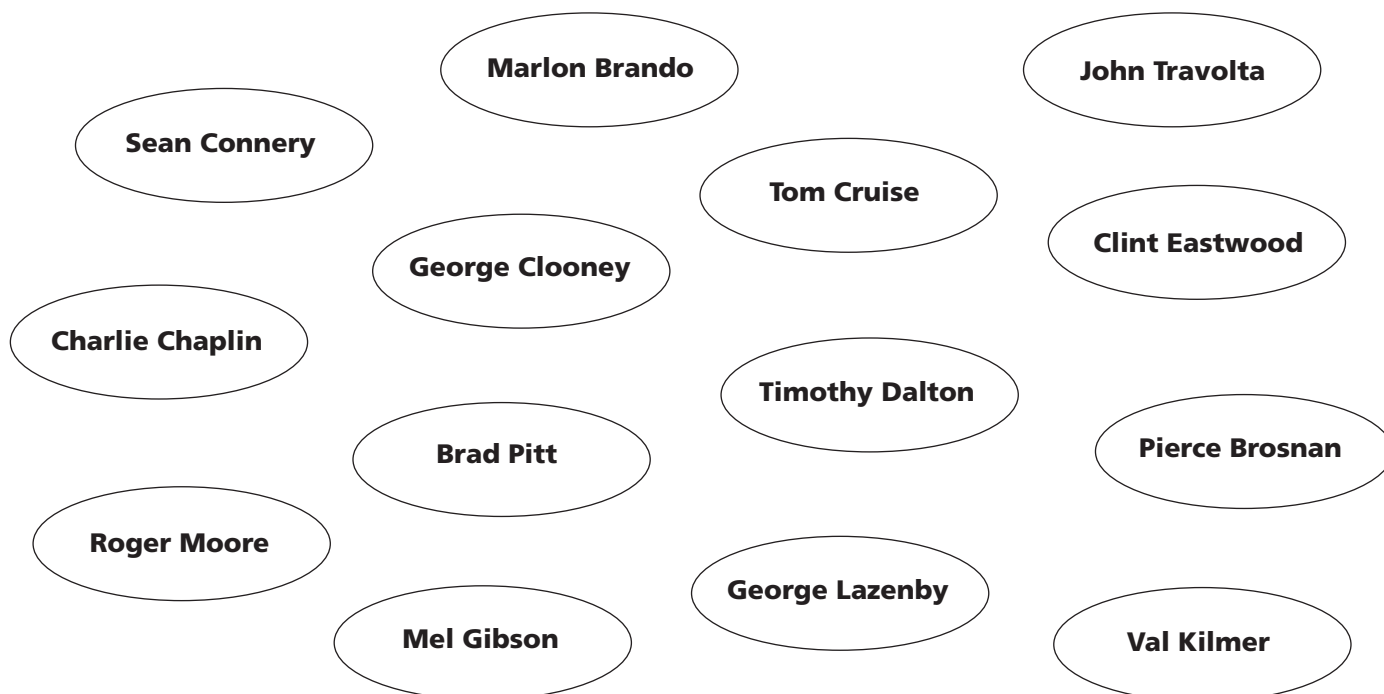

What an adventure! So much for an easy mission! Commander Strangeways was murdered but his secretary escaped. He was killed because he was investigating the strange island called Turtle Key. I travelled to the island with a friend, Quarrel, where we were attacked by a fire breathing machine. Quarrel tried to attack the machine but he drowned in the swamp. The strange Doctor No was using the island to spy on the Russian army. They were testing new weapons on the island. Doctor No was going to sell the information to the Americans for a lot of money. Doctor No captured me and killed my friend Honey. Then he made me take a terrible test. I had to pass through a burning pipe. Then I had to crawl through a cage full of poisonous snakes. Then I fell into the sea where a giant shark tried to kill me. Eventually I passed the tests and killed Doctor No with my knife. Then I escaped from the island by myself in a motorboat. The cruel Doctor No will no longer cause problems on Crab Key again!

Yours sincerely

James Bond

C After Reading

- 5 Imagine you are Doctor No. Design your own obstacle course for Bond.
- 6 James Bond has been played by five actors in the past. Find them from the list below.

Who should be the next James Bond? Give reasons for your choice.

- 7 Design a movie poster for *Doctor No*.
