# Life and style

We ask you to send us a photo and tell us about your home. This week, Alex from New York answers our questions.

I live with my parents and my brother in Brooklyn. We've got a big, old house. You don't find houses like this in Manhattan. It's a great location, near the centre of the city.

There are four bedrooms, two bathrooms, a big living room and a dining room. There isn't a separate kitchen. That's typical in the US. There's one big room with a sofa and chairs and a TV. We call it the family room. The kitchen is open to the living room.

My bedroom of course! It's got everything I need. There's a bed with a small table next to it. There's a wardrobe behind the door. There's a chest of drawers with a mirror above it. There's also a shelf. I'm quite tidy but there are always lots of things on the chest of drawers and on the shelf. There aren't a lot of shelves; that's my excuse! There's a chair in front of the bed. There are usually a lot of clothes on the chair and trainers under the bed! I'm a fan of all types of film so there are posters of my favourite films on the walls.

I do my homework, surf the Internet and chat online. I listen to music and play the guitar.

I've got all my things here. I've got my music and my computer. And I'm <u>lucky</u> because I don't <u>share</u> a room with my sister. This is my space!

#### 3 Read the article again. Match these questions with the correct parts of the text.

**Adrian:** In a special book. I write the name of the person and the date under the signature. I've got about six books now.

3 **a**:

**Adrian:** It depends. I usually ask people when I go to concerts or sports games. I often take a photo with the person, too. I also write to people. There are special websites with the names and addresses of fan clubs. I write to these.

1

Adrian: That's a good question. I don't buy them on the Internet because they're often copies. I know that celebrities sometimes have an assistant and the assistant signs their name, or they use a special machine called an autopen. This makes a copy of a signature. You can find out about these things on the websites.

5 **Q**:

**Adrian:** Yes, it's Angelina Jolie's signature. I know this is real because it's from a letter from her. She's very good at writing letters to her fans.
